What is the Residential Drop-Off Center (1065 Millbury St)?

Worcester has a drop off center at 1065 Millbury St. (formerly called 115 Ballard St) where you can dispose of an unlimited number of bulk waste items at a low cost. There is also a yard waste drop-off area and a compost/winter sand pickup area here. Compost and sand are available for residents to take free of charge when available. Once or twice a year (frequently in October) residents also have the opportunity to drop off hazardous household waste at Millbury St. Appointments and information about disposal costs, hazardous waste drop off, and compost and sand pick up, call DPW at 508- 929-1300. More info: <http://www.ci.worcester.ma.us/dpw/>.

What can I do with yard waste closer to my home?

There is also a neighborhood drop off site for yard waste for Main South and Piedmont residents on Chandler St, in the parking lot across from Foley Stadium. Yard waste is defined as leaves, grass clippings, garden materials, shrub/hedge trimmings, weeds, and brush one inch or less in diameter. Leaving yard waste when the site is closed is considered illegal dumping and subject to fines. See included schedule for hours.

Bulk Item Disposal
